

IDENTIFY THAT FROG WITH THE NEW APP

COMPLETE GUIDE *to the* **FROGS** *of* SOUTHERN AFRICA

Louis du Preez & Vincent Carruthers

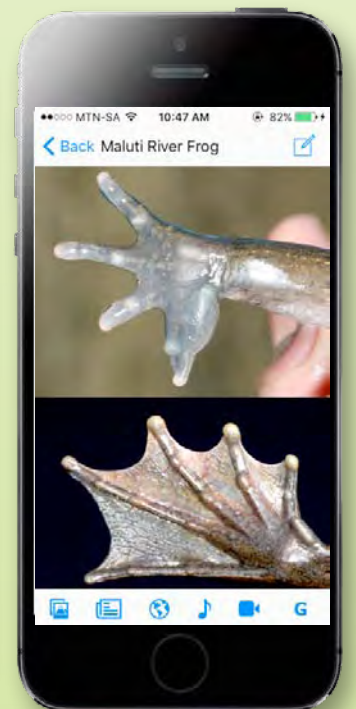

Calling all nature lovers, amateur froggers, students and professional scientists – this unique frog identification app is for you! Authored by zoology professor Louis du Preez and environmental consultant Vincent Carruthers, *Frogs of Southern Africa* is the definitive tool that every nature lover needs for easy and accurate frog identification in the field.

“Identifying frogs in the field can be tricky sometimes – even experts don’t always find it easy. This app has some smart ways to overcome the difficulties.”
– VINCENT CARRUTHERS

These features include

- ▶ Comprehensive coverage of all 167 frog species
- ▶ GPS-enabled search filter
- ▶ An easy key system to quickly whittle down your search results
- ▶ Compare two frogs side by side
- ▶ Hundreds of high quality, close-up photographs and fascinating video footage
- ▶ Store your sightings in a life list and export the information easily

The app is available on the Apple and Android app stores for R250.
